Cairo, Egypt

20 June, 2000

Full Stack Developer specializing in Angular and responsive UI development (HTML, SCSS, TypeScript). Proven experience building RESTful backends with Node.js/Express and MongoDB, integrating Firebase and deploying containerized solutions. Delivered educational platforms, booking systems and ERP customizations.

SKILLS

- | | | | | |
|--------------|-------------------|----------------|--------------------|------------------|
| • HTML | • JavaScript | • TypeScript | • Angular | • Nodejs |
| • CSS | • Tailwind CSS | • Bootstrap | • Firebase | • MongoDB |
| • Git | • GitHub | • Postman | • PrimeNg | • Expressjs |
| • SCSS | • Problem-Solving | • RESTful APIs | • Angular Material | • Docker |
| • CI / CD | • AWS S3 | • Azure | • RxJS | • ERPNext |
| • Cloudinary | • NPM | • JWT | • Command Line | • Authentication |

PROJECTS

Educational Platform – Student & Tutor & Admin Portal

- Developed a full learning platform supporting live sessions, progress tracking, assignments, and role-based access. Built student dashboards, scheduling tools, and content management features.
- Tech:** Angular, TypeScript, HTML/SCSS, Firebase (Auth, Firestore), Node.js, Express.js

Travel Egypt Vacation – User & Admin Portal

Developed Travel Egypt Vacation, a tourism platform for international visitors to browse attractions and request tour packages. Built an admin dashboard for managing destinations, packages, and reservations.

Tech: Angular, TypeScript, Bootstrap, HTML/SCSS, Firebase (Authentication & Firestore).

Dajen System (ERPNext)

- Customized ERPNext modules for accounting, inventory, and sales. Integrated the system with an Angular frontend, created dashboards, and deployed via Docker for scalability.
- Tech:** Angular, TypeScript, HTML/SCSS, Firebase (Auth, Firestore), Ng-Bootstrap

Landing Pages & Portfolio Websites Collection

developed professional landing pages and personal portfolio websites for doctors, teachers, engineers, and educational platforms. Delivered fully responsive interfaces with animations, optimized for desktops, tablets, and mobile devices.

- Tech:** HTML, CSS/SCSS, Tailwind CSS, JavaScript, Angular.

Tartebat & Career Officer – Full-Stack Platforms (Team Projects)

- Collaborated with a development team to build two full platforms: Tartebat, an operations management system for handling tasks, schedules, employee roles, and workflows; and Career Officer, a learning platform featuring courses, progress tracking, quizzes, and admin dashboards. Contributed to front-end development with Angular and to back-end APIs using Node.js, Express, and MongoDB, including secure role-based access and real-time data handling.
- Tech:** Angular, TypeScript, SCSS, Node.js, Express.js, MongoDB, JWT, Bootstrap.
